4. Your favorite person

My grandfather, who is my hero and the most charming man I have ever met. He was a mayor and headmaster before who is honorable. He could play different musical instruments and writes poems with wonderful calligraphy. He draws, he dances, he sings, he drinks tea, he drinks wine, he smokes, he laughs, he enjoys everything. He read many books and has incredible wisdom as well as energy. Even when he was lying on the bed in hospital, we were so worried about whether he could survive as he cut half of his liver. He still told stories and jokes with other patients. He has amazing life energy and power. He climbed one of the tallest mountains in China after two months he had been out from hospital, which broke the history record and now he is the oldest man who has climbed it successfully. He could take out a big number of money just to help someone who he just met. He could send me roses, presents, a piece of romantic letter every year. He writes songs for me and sings them. He is the most charming man in the world! My forever inspiration and empowerment.

11. Why did you choose this project/why did you choose to go to the internship?

I will apply for my master degree in UK next year and I wish to explore my interest and strength more. I want to open up my future blueprint as well as my inspirations and empowerment. What can a young people do and how I could change the world instead of being changed. I don't need to do a huge thing, I just want to do something. I am following my heart. I wish I could keep this in my whole life. To pursue the better future even I am still not clear, to believe the creation and power I could have, to have more optimistic influences on others and spread the empowerment like what I get from others. I am always eager for changes and challenges. I am always trying to get the deep self-satisfaction and happiness from inner self. I am not always strong and fearless but I know I am eager for being stronger and more powerful.
